Paper # 9

**Pakistan GDP comparison different countries**

**Prepared by:**

**Mohammad Naeem Yousaf**

**MBA(Marketing) UAF**

## 1. GDP improves in Pakistan

**Gross Domestic Product of Pakistan** grew 5.2% in 2018 compared to last year. This rate is 2 -tenths of one percent less than the figure of 5.4% published in 2017.

The GDP figure in 2018 was \$312,570 million, Pakistan is number 41 in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in Pakistan dropped \$7,618 million with respect to 2017.

The **GDP per capita of Pakistan in 2018** was \$1,555, \$9 less than in 2017, when it was \$1,546. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2008 when the GDP per capita in Pakistan was \$1,038.

If we order the countries according to their GDP per capita, **Pakistan** is in 156th position. According to this parameter, its population is among the poorest of the 196 countries whose GDP we publish.

Here we show you the progression of the GDP in Pakistan. You can see GDP in other countries in GDP and see all the economic information about Pakistan in Pakistan's economy.

## 2. GDP improves in India

**Gross Domestic Product of India** grew 7.1% in 2018 compared to last year. This rate is 4 -tenths of one percent higher than the figure of 6.7% published in 2017.

The GDP figure in 2018 was \$2,716,750 million, leaving India placed 6th in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in India rose \$64,500 million with respect to 2017.

The **GDP per capita of India in 2018** was \$2,029, \$48 higher than in 2017, it was \$1,981. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2008 when the GDP per capita in India was \$1,049.

If we order the countries according to their GDP per capita, **India** is in 146th position, its population has a low level of affluence compare to the 196 countries whose GDP we publish.

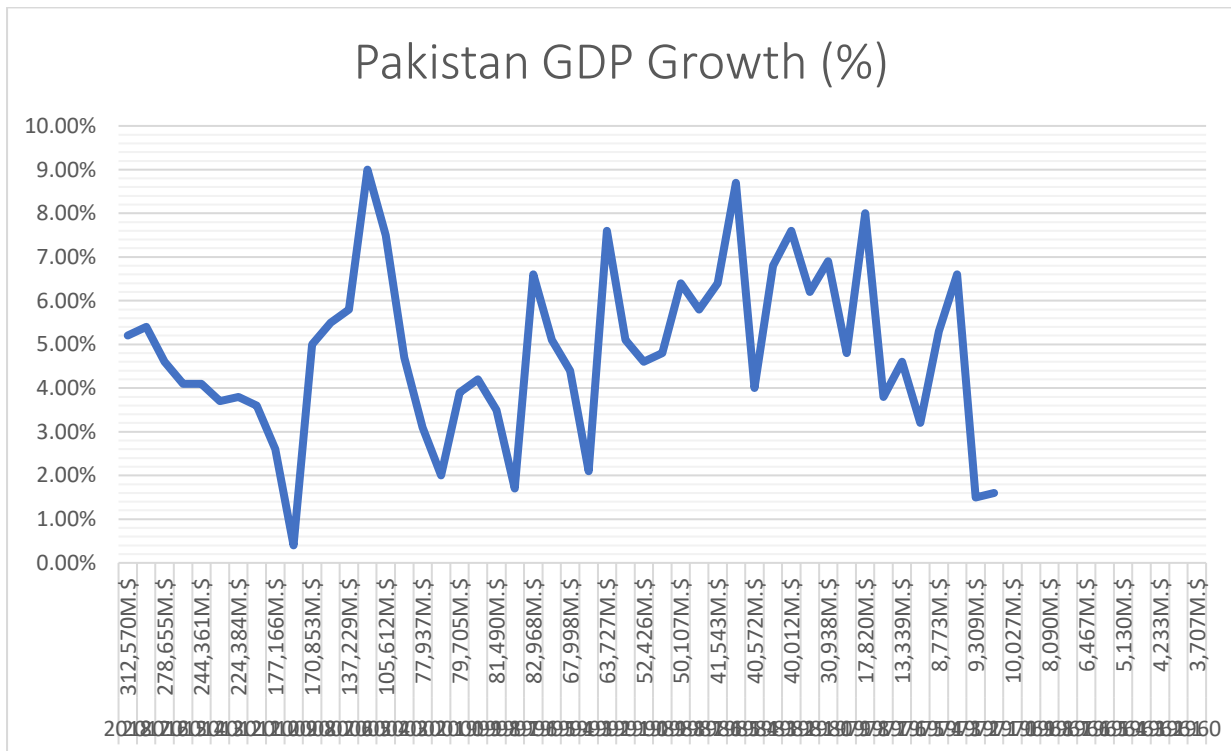

Here we show you the progression of the GDP in India. You can see GDP in other countries in GDP and see all the economic information about India in India's economy.

**Evolution: GDP per capita India GDP P.C. Annual Growth**

### 3. GDP improves in Pakistan

**Gross Domestic Product of Pakistan** grew 5.2% in 2018 compared to last year. This rate is 2 -tenths of one percent less than the figure of 5.4% published in 2017.

The GDP figure in 2018 was \$312,570 million, Pakistan is number 41 in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in Pakistan dropped \$7,618 million with respect to 2017.

The **GDP per capita of Pakistan in 2018** was \$1,555, \$9 less than in 2017, when it was \$1,546. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2008 when the GDP per capita in Pakistan was \$1,038.

If we order the countries according to their GDP per capita, **Pakistan** is in 156th position. According to this parameter, its population is among the poorest of the 196 countries whose GDP we publish.

Here we show you the progression of the GDP in Pakistan. You can see GDP in other countries in GDP and see all the economic information about Pakistan in Pakistan's economy.

### 4. GDP improves in China

**Gross Domestic Product of China** grew 6.6% in 2018 compared to last year. This rate is 2 -tenths of one percent less than the figure of 6.8% published in 2017.

The GDP figure in 2018 was \$13,407,400 million, leaving China placed 2th in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in China rose \$1,345,120 million with respect to 2017.

The **GDP per capita of China in 2018** was \$9,645, \$968 higher than in 2017, it was \$8,677. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2008 when the GDP per capita in China was \$3,467.

If we order the countries according to their GDP per capita, **China** is in 72th position of the 196 countries whose GDP we publish.

Here we show you the progression of the GDP in China. You can see GDP in other countries in GDP and see all the economic information about china in china economy.

**Evolution: GDP per capita China GDP P.C. Annual Growth**

## 5. GDP improves in Vietnam

**Gross Domestic Product of Vietnam** grew 7.1% in 2018 compared to last year. This rate is 3 -tenths of one percent higher than the figure of 6.8% published in 2017.

The GDP figure in 2018 was \$241,272 million, Vietnam is number 47 in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in Vietnam rose \$20,896 million with respect to 2017.

The **GDP per capita of Vietnam in 2018** was \$2,525, \$218 higher than in 2017, it was \$2,307. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2008 when the GDP per capita in Vietnam was \$1,154.

If we order the countries according to their GDP per capita, **Vietnam** is in 140th position, its population has a low level of affluence compare to the 196 countries whose GDP we publish.

Here we show you the progression of the GDP in Vietnam. You can see GDP in other countries in GDP and see all the economic information about Vietnam in Vietnam's economy.

**Evolution: Annual GDP Vietnam GDP Growth (%)**

**Evolution: GDP per capita Pakistan GDP P.C. Annual Growth**

### Evolution: GDP per capita Vietnam GDP P.C. Annual Growth

### 6. GDP grows 7.6% in Bangladesh

**Gross Domestic Product of Bangladesh** grew 7.6% in 2017 compared to last year. This rate is 4 - tenths of one percent higher than the figure of 7.2% published in 2016.

The GDP figure in 2017 was \$262,077 million, Bangladesh is number 44 in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in Bangladesh rose \$26,454 million with respect to 2016.

The **GDP per capita of Bangladesh in 2017** was \$1,592, \$146 higher than in 2016, it was \$1,446. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2007 when the GDP per capita in Bangladesh was \$585.

If we order the countries according to their GDP per capita, **Bangladesh** is in 152th position, its population has a low level of affluence compare to the 196 countries whose GDP we publish.

Here we show you the progression of the GDP in Bangladesh. You can see GDP in other countries in GDP and see all the economic information about Bangladesh in Bangladesh's economy

## 7. GDP improves in Taiwan

**Gross Domestic Product of Taiwan** grew 2.6% in 2018 compared to last year. This rate is 5 -tenths of one percent less than the figure of 3.1% published in 2017.

The GDP figure in 2018 was \$589,391 million, Taiwan is number 21 in the ranking of GDP of the 196 countries that we publish. The absolute value of GDP in Taiwan dropped \$14,496 million with respect to 2017.

The **GDP per capita of Taiwan in 2018** was \$25,005, \$615 less than in 2017, when it was \$24,390. To view the evolution of the GDP per capita, it is interesting to look back a few years and compare these data with those of 2008 when the GDP per capita in Taiwan was \$18,103.

If we order the countries according to their GDP per capita, **Taiwan** is in 38th position of the 196 countries whose GDP we publish.

Here we show you the progression of the GDP in Taiwan. You can see GDP in other countries in GDP and see all the economic information about Taiwan in Taiwan's economy
